

Switch to Natural Gas and lower your annual heating costs

Dear Resident,

Several of your neighbors have contacted Elizabethtown Gas expressing interest in having natural gas service extended throughout your community. We are sending this letter on behalf of Elizabethtown Gas. As the natural gas utility serving your community, Elizabethtown Gas is interested in providing all homeowners and business owners with the opportunity to switch to natural gas and save money on their energy bills. Calculate your savings at elizabethtowngas.com/switch.

We are reaching out to you to gauge your interest in switching to this energy-efficient, dependable and economical fuel source.

If there is enough interest, Elizabethtown Gas will evaluate the feasibility of providing natural gas to you. If you are interested, Elizabethtown Gas representatives will reach out to you to answer any questions, provide additional information and accept new requests for service. At this point, we are simply gathering interest. There's no obligation to switch.

If you are interested, please complete the enclosed card and drop it off at the municipal building.

If you have any questions, please call Matthew Wenneis at **908.329.2920** or email mwenneis@sjindustries.com.

Sincerely,

Lafayette Township Team

HEATING

| Residential Annual Heating Cost | | |
|---------------------------------|--------------------|---------------------------|
