HEARINGS:

1.) Lafayette Amateur Athletics Conceptual B:7 L:16

Mr. O'Leary stepped down for this application because he is the treasurer of the LAA.

Mr. Corcoran stepped down for this application because he is the president of the LAA.

The Board Secretary noted the Board no longer had a quorum to hear the application. Mrs. Straub felt the Board could hear the application because it was a conceptual and no vote would be taken. She said the application was concerning a public piece of property and the applicant was only present as a courtesy. Ms. Leo felt there should be a quorum because the Board should make a recommendation and that would require a vote. She suggested the applicant make his presentation and the Board Secretary will make sure at least two other eligible Board Members listen to the recording prior to a recommendation being made. Mr. Onorevole agreed to this procedure.

Mr. Leuthe joined the Board at 7:47 p.m.

Mr. Joe Onorevole stated he was representing the Lafayette Armature Athletics which he is a member of. He said he is also a member of the recreation committee in town. He said the LAA was proposing to build a snack stand/ pavilion that they were planning on constructing between the two existing baseball fields at the park located at 115 Route 15. He said it will be a pole style building with an over all size of 24' X40' with a 24' X 24' open area for picnic tables. The back side would be an 8' X 24' snack stand and an 8' X 24' storage area for sports equipment and field maintenance equipment.

Mr. Hahn asked how much the structure would cost the town to which Mr. Onorevole said the town is not paying for it. It will be funded by the LAA.

Mr. Onorevole said the existing snack stand will be removed and the smaller existing shed will be relocated so it can be used someplace else. He said they will use the building for cover in the event of a lighting storm. They are planning on constructing it 50 feet off of the property line. Mr. Onorevole presented a survey of the property with the proposed building location on it. He also presented architectural drawings of the snack stand/pavilion. The survey was marked as exhibit A-1. The architectural drawing was marked as exhibit A-2.

Mr. Taylor asked if there will be electric to the stand to which Mr. Onorevole said yes. Mr. Taylor asked if there will be propane to which Mr. Onorevole said no. Mr. Onorevole explained the location of the proposed snack stand and the shed that will be relocated. Mr. Duveneck asked if some of the asphalt will be removed. Mr. Onorevole said he did not know but if it was it would be removed by the Township.

Mrs. Straub asked about the length of construction time. Mr. Onorevole said they are hoping to start construction at the end of October and he estimated it would take about eight weeks.

Mr. Leuthe asked if the application fee was waived to which the Board Secretary said yes.

Mr. Duveneck said he did not see any issues with the proposal. He said they are actually fixing a problem that already exists. He said it is completely away from the road and there are no traffic issues. He said there is a small amount of impervious that is being added and some of the existing impervious coverage may even be removed. He said he sees no problems with the application.

Ms. Leo suggested the Board carry the application to next month's meeting until additional Board Members listen to the recording and then at that time they will make a recommendation.

Mr. Corcoran and Mr. O'Leary returned to the Board.

He said his recommendation is to deem the application incomplete due to the number of checklist items that are missing. He said if the information is sent to him in a timely fashion he would be ready to deem the application complete and then move forward with the hearing at the next meeting. He said asphalt plants typically involve nighttime hours and they did not provide a lighting plan. He said they are asking for a waiver to the environmental impact statement. He said in his opinion the site would have an impact and it does intensify the use.

Mr. Leuthe asked if they are planning on running a large furnace to heat up the asphalt. Mr. Duveneck said they would bring in a portable plant with a sizable concrete pad. He said the Board needs to consider the traffic going in and out of the site. He did say the plant will not be as close to the residential zone as the concrete plant is and there are

berms around the property. Mr. Leuthe expressed a concern about the distance to the Paulinskill. Mr. Duvneck suggested the hours of operation on the record. The Board felt an EIS would be necessary. Mr. Duvneck recommended the application be deemed incomplete.
